

Pranav Bhardwaj

Objective

To work as a Software Developer with a team with positive environment and challenging work.

Experience

Raxa Health - Software Engineer

New Delhi, Delhi

09/2019 - Current

Working on preexisting Android app to maintain and develop it further using native code and React Native, and integrating features like video calling and drawing overlays over other apps.

Kilobyte Technologies - Front End Developer

Ghaziabad, UP

05/2019 - 08/2019

Using React Native to develop and maintain hybrid mobile apps with features such as background geolocation tracking and integrated google maps to show different locations.
